OUR WORKING PROCEDURE

01

Project Initiation

Define project scope, objectives, and timelines with the client to ensure a clear understanding of the project's goals and expectations.

02

Requirements Gathering

Collect and document project requirements through stakeholder interviews, surveys, and workshops to ensure a comprehensive understanding of the client's needs.

03

Design and Prototyping

Create visual representations of the solution, including wireframes and prototypes, to communicate the design concept and gather feedback from the client.

04

Development

Build the solution using agile methodologies, with regular iterations and feedback loops, to ensure a high-quality and flexible product.

05

Quality Assurance

Test the solution thoroughly to identify and fix defects, ensuring that it meets the client's requirements and industry standards for quality, security, and performance.

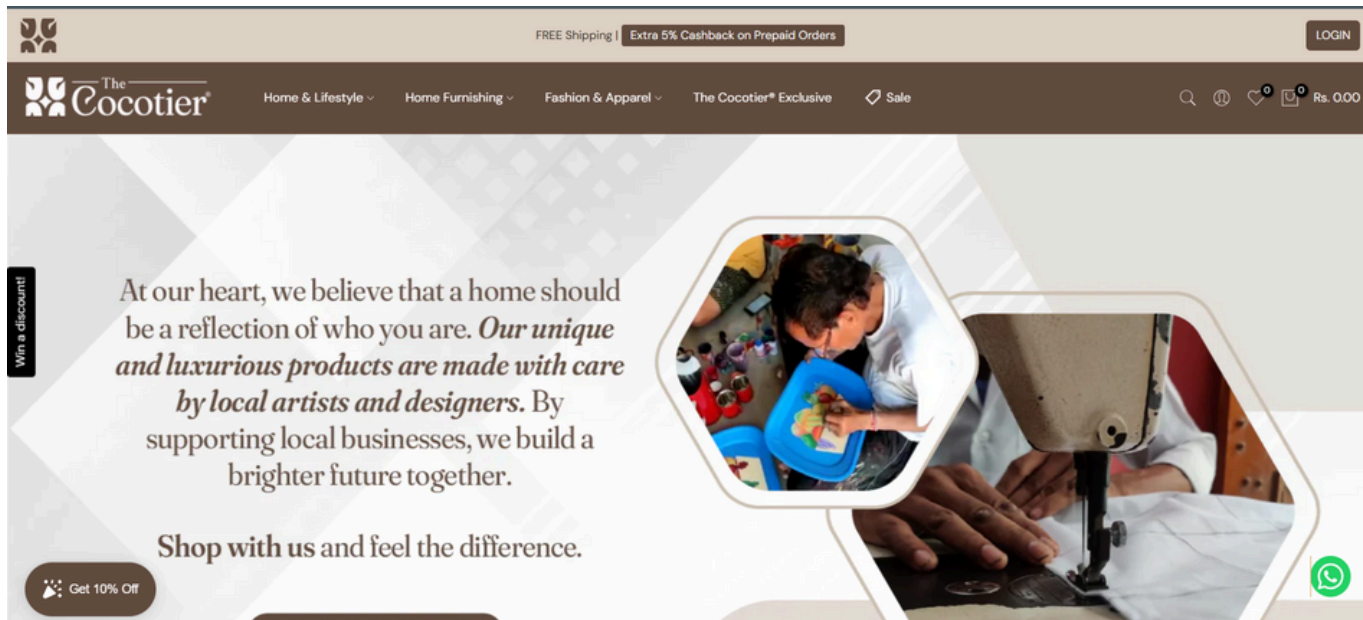

06

Maintenance and Support

Provide ongoing assistance, including bug fixes, updates, and enhancements, to ensure the solution continues to meet the client's evolving needs and remains secure and efficient.

Explore Our Portfolio

Ecommerce website portfolio

This project is a website for an online shop called **The Cocotier** that sells home decor and fashion items made by local artists and designers.

The website features a modern and clean design with a focus on promoting the shop's commitment to supporting local businesses.

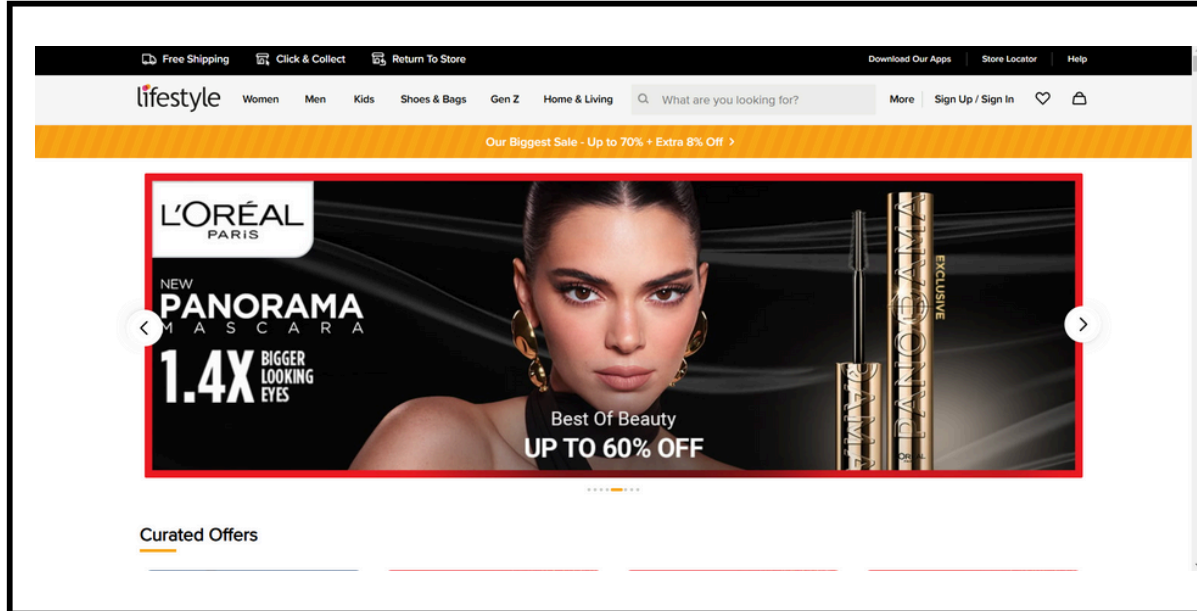

<https://thecocotierstore.com/>

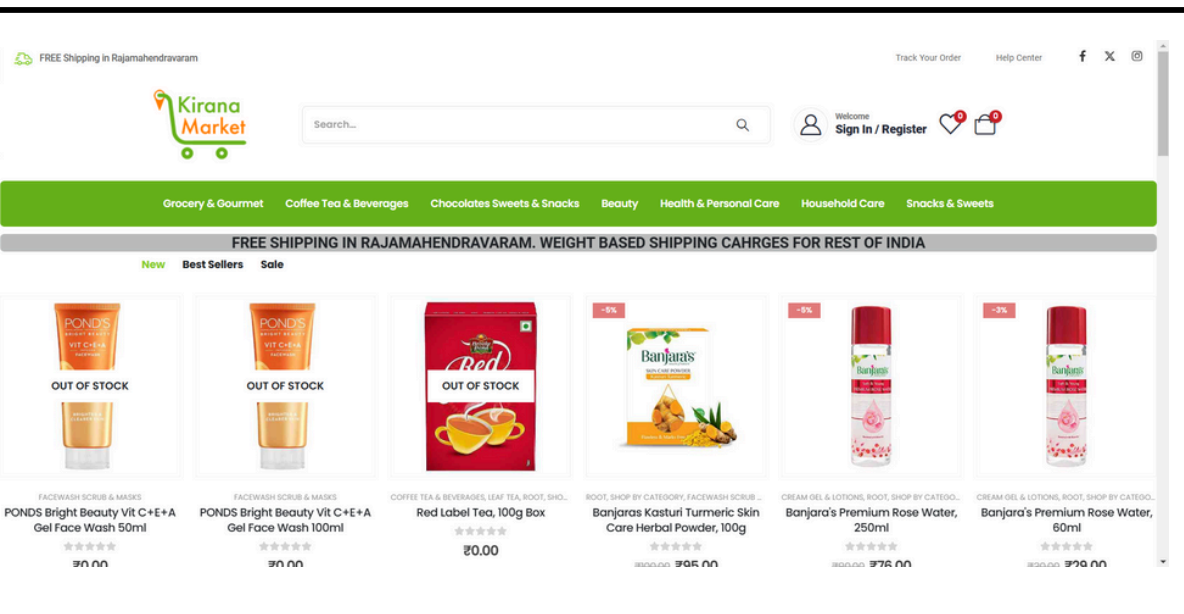

Ecommerce website portfolio

This website project was to design and develop a user-friendly e-commerce website for **lifestyle** retailer, featuring a clean and modern design, a user-friendly interface, and seamless shopping experience.

<https://www.lifestylestores.com/in>

<https://www.kiranamarket.com/>

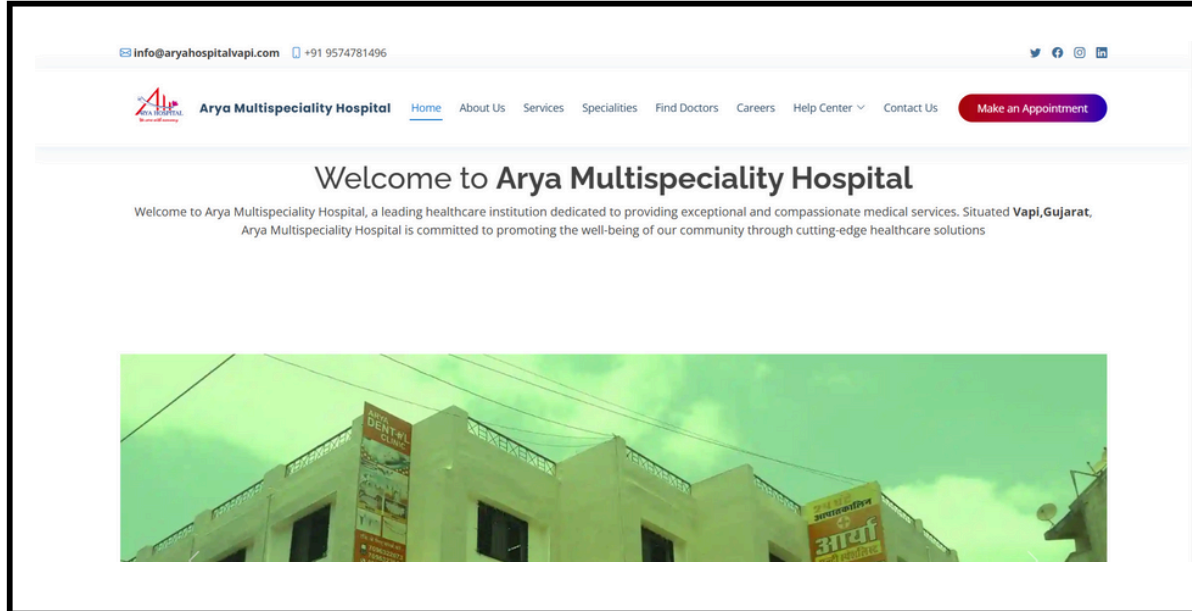

"Kirana Market:

Developed a fully-featured e-commerce platform for an Indian online grocery store using cutting-edge technologies, including responsive design, user-friendly interface, secure payment gateway integration, weight based shipping charges calculation, best sellers section, and seamless navigation, resulting in a smooth shopping experience for the end-users."

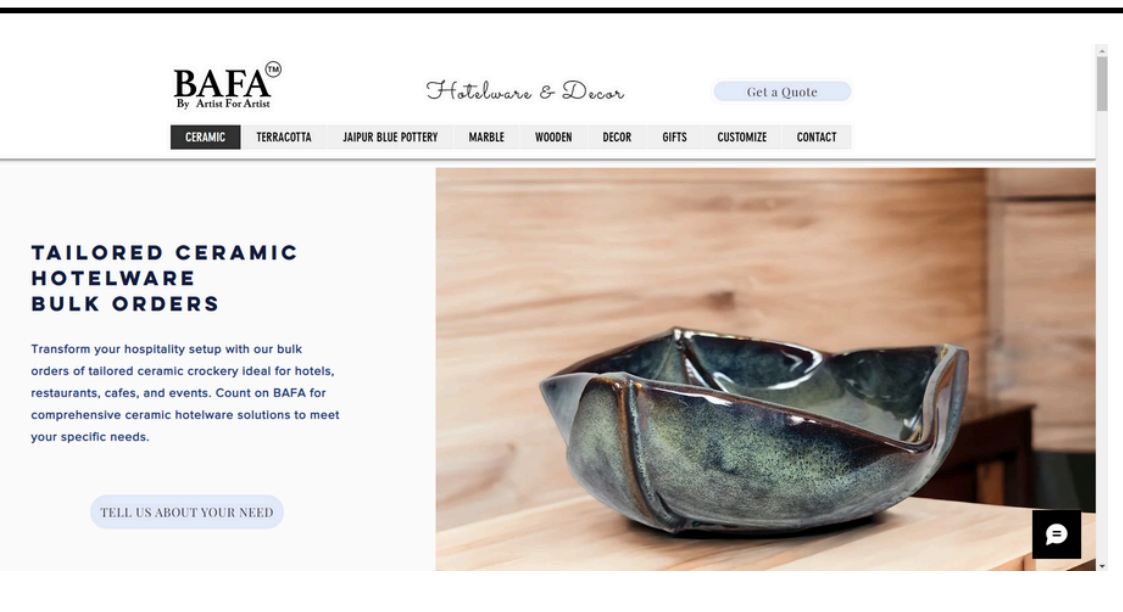

Hospitals website portfolio

"Arya Multispeciality Hospital: A modern and functional website designed and developed by us, featuring a clean and intuitive interface, easy navigation, and responsive design. The website includes doctor profiles, online appointment booking, and comprehensive service information, all integrated with a robust backend system for efficient hospital management."

<https://aryahospitalvapi.com/>

MetaFox Technologies designed and developed the **BAFA** Hotelware & Decor e-commerce platform, featuring a tailored, user-friendly interface for bulk ordering of ceramic hotelware. The website includes advanced functionalities like a robust database for inventory management, secure transactions, seamless navigation, and a responsive design to enhance the overall user experience.
